## Quick Guide

Note that the ring sizes in the table below is an estimation based on the population in Asia.

| Asian Ring Sizes | Men's Ring Sizes (US) | Female Ring Sizes (US) |
| :--- | :--- | :--- |
| XS | $41 / 2-51 / 2$ | $3-4$ |
| S | $51 / 2-61 / 2$ | $4-41 / 2$ |
| M | $61 / 2-8$ | $41 / 2-51 / 2$ |
| L | $8-91 / 2$ | $51 / 2-61 / 2$ |
| XL | $91 / 2-111 / 2$ | $61 / 2-71 / 2$ |

## Estimate your Ring Size

- For a higher accuracy, measure your fingers at the end of the day when your fingers warm and are at their largest.
- Never measure using string or paper as these materials may result in inaccurate readings.
- If you have an existing ring, trace the inner circle of the ring on a piece of paper and use a ruler to measure the diameter across the circle you have drawn. After obtaining the diameter in millimetres $(\mathrm{mm})$, use the Ring Size Conversion Chart below to obtain the US size for purchase on our website.
- Measure 3 to 4 times to eliminate reading errors.
- If you are purchasing a ring for a lady as a surprise, ask her close friends or mother if they know her finger size. Borrow their ring and measure the same way as described above.
